The purpose of this alert is to affirm the continued urgency of this program's operation. The plan data and information submitted by project operators is being used to support the State's National Reserve Application to the Department of Labor for the full \$25 million award and the subsequent needs request of over \$50 million.

Since an initial allocation has been provided as "start up" funding for immediate use, it is expected that eligible temporary job participants should be on the job or ready to be employed at the various work sites. The exceptions to this would be those sites where snow has yet to melt, or the "waters" have to recede prior to cleanup, repair and/or reconstruction of public and private nonprofit property.

The continued urgency will necessitate the redirection of funds to areas with the most immediate needs.

Please refer any questions regarding this matter to Luis Hermosillo at (916) 654-5416 or Laine Hendra-Aldrich at (916) 654-5595.
